

HOT SPUDS NOW AVAILABLE...

PRESS RELEASE

Perfect Fry Company is pleased to announce they are the new Australian and New Zealand Agent Distributor for the King Edward Potato Oven Range.

King Edward has been established for more than 30 years. They were first introduced in Australia back in 1996. Perfect Fry Company has acquired the distribution rights from the original Australian Agent who installed hundreds of units across various business types including school canteens, hospital cafeterias, cafes and kiosks, roadhouses, function centres, take aways, service stations, QSR's, kiosks and more.

The range is all designed and manufactured in England.

A family owned business committed to quality and customer service, Perfect Fry is looking forward to extending this locally.

The range includes various traditional and contemporary style potato ovens. The ovens have a fan forced cooking chamber, lined with marine grade stainless steel, internal rounded corners and exhaust to allow just the right amount of moisture in the chamber to produce quality baked spuds! Display chamber above the oven allows warm storage of cooked potatoes for serving from while operator can cook the next batch.

There is a range of different sizes to suit capacity requirements.

Also available are matching styled bain maries and cold servers for all your favourite potato toppings.

These crafted ovens and equipment are designed to fit front of house to help promote the sales of hot potatoes in any premises.

For all Sales and Service Enquiries, please contact us on (03) 9877 7711 or visit our website
